(application filed on or after May 29, 2000)

The patent term adjustment to date is 0 days. If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the term adjustment will be 0 days.

If a continued prosecution application (CPA) was filed in the above-identified application, the filing date that determines patent term adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) system. (<http://pair.uspto.gov>)

Any questions regarding the patent term extension or adjustment determination should be directed to the Office of Patent Legal Administration at (703)305-1383.

Notice of Fee Increase on January 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after January 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on January 1, 2003. See Revision of Patent and Trademark Fees for Fiscal Year 2003; Final Rule, 67 Fed. Reg. 70847, 70849 (November 27, 2002).

The current fee schedule is accessible from: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after January 1, 2003 (or mailed with a certificate of mailing on or after January 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

This application is in condition for allowance except for the presence of claims 1-4 and 31-34 non-elected without traverse. Accordingly, claims 1-4 and 31-34 have been cancelled.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The applicant filed an amendment, received January 6, 2003 that changed the title of the invention, amended the drawings, amended the specification, and provided missing documents identified described in the IDS.

With respect to the title change, the new title is much more descriptive and approved.

With respect to the drawings, the proposed changes are acceptable and the drawing objections are withdrawn.

With respect to the specification, the proposed changes introduce no new matter and correct the typographical errors and include the missing information.

With respect to the missing documents from the first IDS (paper 6 ½), all documents have been received and are now included the case file.

With respect to claim 5, a review of continuing data showed no double patenting issues for the elected claims. In addition, a review of prior art failed to disclose or make obvious any scanning probe microscopy system or method whereby the probe tool is mounted in an aperture and simultaneously includes a means to restrict gas flow. The gas flow restriction means places the aperture in fluid communication with a vacuum source to create a microvacuum chamber in the gap region surrounding the aperture and between the probe surface and work surface.

Claims 6 – 24 are allowed because they depend upon claim 5 or upon claims that ultimately depend on claim 5.

With respect to claim 25, a review of prior art failed to disclose or make obvious any scanning probe microscopy system or method that uses a particle beam tool having the emitter mounted in an aperture of the probe base with the electrodes configured in the order described and simultaneously includes a means to restrict gas flow as described above.

Claims 26-30 are allowed because they depend upon claim 25 or upon claims that ultimately depend on claim 25.

Any comments considered necessary by applicant must be submitted no later than the payment of issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement for Reasons of Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. U.S. Patent 5,072,116 to Kawade, et al. describes microprobe preparation and use.
